

Anjini Jamwal

(518)-308-7938 | jamwaa@rpi.edu | linkedin.com/in/anjinijamwal

OBJECTIVE

Enthusiastic and dedicated Computer Science student with a strong foundation in programming and a passion for designing and implementing robust software solutions.

SKILLS

Python, C++, C, Java, JavaScript, CSS, Linux, AWS, MongoDB, Figma, REACT, Rest API, NodeJS, Expo, NumPy, Flask, Render, Git, HTML, VS Code, Mobile Application Development, Web Application Development

EDUCATION

Rensselaer Polytechnic Institute (RPI)

Bachelor of Science in Computer Science

Troy NY

Expected May 2026

Honors- Dean's Honor List, Rensselaer Leadership Award, Helaine Miriam Falkson Scholarship, Women's Leadership Award

COURSES

ML and Optimization, Introduction to Algorithms, Data Structures, Foundations of Computer Science, Computer Organization

RELEVANT EXPERIENCE

AI/ML Research Intern, Paraxial Technologies, Clifton Park, NY

Spring 2024 - Present

- Implemented code for lung cancer CT screening to enhance the efficiency of pulmonary nodule detection.
- Modified and optimized deep learning algorithms in C++ and Python, and extracted patient data for analysis.

President, Girls Who Code College Loops, RPI, NY

Spring 2024 - Present

- Spearheaded the establishment of the Girls Who Code College Loop at RPI, organizing events to support female participation in coding activities.
- Responsible for overseeing meetings and organizing events to support female participation in tech.

Undergraduate Research Assistant (Wild Me Project), RPI, NY

Spring 2024

- Utilized YOLOv8 and NumPy for the endangered zebra population in Zambia monitoring via computer vision.
- Designed user-friendly web apps for the Wild Me project, integrating machine learning for better data visualization and efficient conservation.

PROJECTS

Edureka: Event Managing Web Application Team

Spring 2024

Rensselaer Center for Open Source, RPI, NY

- Designed a mobile application for the RPI President, providing direct access to schedules and bookings on campus.
- Collaborated with cross-functional teams to build REST APIs in Express.js and MongoDB, enabling seamless event data integration with two other event-scheduling mobile applications.

HackRPI Mobile Application Team

Fall 2024

Rensselaer Center for Open Source, RPI, NY

- Contributed to the front-end development of a mobile app for the annual RPI Hackathon, streamlining participant registration and providing clear access to hackathon statistics
- Implemented new features using Figma and React, and managed version control via GitHub repositories.
- Developed and tested the app on both Android and iOS platforms using Expo.

EXTRACURRICULAR

Conferences – Grace Hopper Celebration for Women in Computing 2023 & 2024, Girls Who Code Hiring Winter Summit

Clubs and Organizations – RPI Union Staff, Member of Girls Who Code Association at RPI, Outing Club Active, Cycling Club Active Member, Rounak lead dancer (Bollywood dance team), Wellness Committee, Rensselaer Centre for Open Sourcing
